

## Single Wrench for Photographers

Single Wrench is the perfect file sharing solution for Photographers to manage their business. Designed to handle large files, and with features to allow you to collaborate online with your clients, Single Wrench is a file sharing solution that will meet all your needs.

### The Strengths of Single Wrench

- **Large files? No problem:** Single Wrench easily handles files of any size.
- **Online browsing:** With visual preview of most file types (PDF, Photoshop, TIF, etc.) your clients can browse online the files you share. This allows clients to do their selects online, saving even more time and effort.
- **Notifications:** You are notified by email when files are downloaded – no more guesswork is involved wondering whether your files have reached their destination.
- **Ease of use:** Drag and drop allows you to upload entire folders (including subfolders) in one go. Great for jobs with multiple files for each shot.
- **Branding:** Add a logo and splash page to your account, ensuring great visibility with your clients.
- **Collaboration:** Your clients can collaborate online by attaching comments, files or other markup to files you share, streamlining your workflow.
- **Billing model:** With **pay as you go** and **pay for what you use**, you have a cost effective file sharing platform.

### Conclusion

With photography now mostly digital, photographers need a secure, reliable and easy to use file sharing solution. Single Wrench provides you all this, helping to ensure your clients are satisfied!
